BEFITTING THE
LEGACY OF
THOMAS JEFFERSON

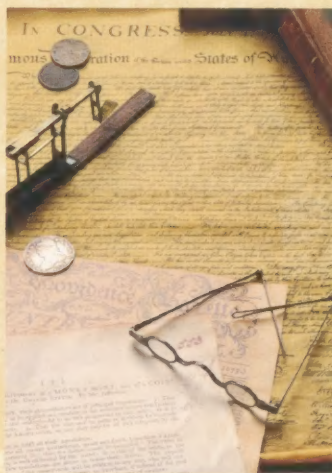

THE U.S. MINT
IS PROUD TO
INTRODUCE THE
THOMAS JEFFERSON
250TH ANNIVERSARY
SILVER DOLLAR

A MAN WITHOUT EQUAL IN HIS TIME OR OURS

Founding father and third President of the United States. Architect of democracy and author of the Declaration of Independence. Scientist ... philosopher ... scholar ... archaeologist ... horticulturist ... to name but a few of his fascinating dimensions.

A true Renaissance man and unparalleled defender of individual rights, Thomas Jefferson stands as one of the most influential — and most revered — figures in our Nation's history.

Shown here are some of Jefferson's writings, three coins minted during his lifetime, as well as some of his possessions, including a pocket money scale, a pair of spectacles, and a volume of Plutarch's *Plutarchi Vitae Parallelae*.

Now, in celebration of Jefferson's birth, April 13, 1743, the United States Mint pays special tribute to his enduring legacy of freedom in America and his enlightened intellect with the Thomas Jefferson 250th Anniversary Silver Dollar.

COLLECTOR AND FATHER OF AMERICA'S DECIMAL COINAGE SYSTEM

A devoted collector of art, books and Native American artifacts, Thomas Jefferson also assembled a notable collection of coins.

His greatest legacy to numismatics, however, was America's decimal coinage system, whose origins can be traced back to Jefferson's *Notes on the Establishment of a Money Unit, and of a Coinage for the United States* (1784).

He also played a vital role in establishing the United States Mint.

It is appropriate that we should now honor his major contributions to America's monetary system with this historic commemorative coin.

A REMARKABLE FIRST FOR THE AMERICAN COLLECTOR

Jefferson's achievements have been recognized in past commemorative issues ... from the 1903 gold dollar celebrating his contributions to the Louisiana Purchase ... to the 1991 Mount Rushmore 50th Anniversary Coins.

However, this Thomas Jefferson 250th Anniversary Silver Dollar marks the first commemorative coin dedicated exclusively in his honor — one that will secure its own rightful place in numismatic history.

Add to that a limited authorized mintage of only 600,000 coins — *one of the lowest in recent commemorative history* — and this first-ever commemorative coin will generate considerable

interest among coin collectors and Jefferson enthusiasts alike. So please, don't miss this opportunity — place your order right away!

The Medallion Portrait by Gilbert Stuart

"... Deemed the best which has been taken of me." (1815)

THE MEDALLION PORTRAIT: A REVEALING PROFILE OF A UNIQUE AMERICAN

Among the many likenesses of Thomas Jefferson is the Medallion Portrait of 1805 by Gilbert Stuart, one of the most famous American painters of his time. This profile was painted in a classical manner to look like a coin or medal, and was considered by Jefferson's family and friends to be the best likeness of him.

Coins shown are larger than actual size. Designs depicted are renderings and are subject to slight modifications.

with polished dies, accentuating the minute detail of the frosted images set against a mirror-like background. The uncirculated version features a soft, satin-like finish.

COIN OBERVERSE: Jefferson's image featured on the obverse is based on Stuart's celebrated Medallion Portrait. Now the U.S. Mint's engravers have immortalized this work in precious metal for this historic commemorative coin.

"All my wishes end, where I hope my days will end, at Monticello." (1787)

MONTICELLO: MORE THAN A HOME ... A WORK OF GENIUS

Thomas Jefferson's Virginia home, Monticello, was the heart of his private world. Built to his own design and continually modified over the course of 40 years, Monticello became the physical repository for his diverse collections, as well as a spiritual environment where the many facets of his genius could flourish.

Today, Monticello stands as the physical embodiment of Jefferson's spirit — an enduring symbol of his ideals and relentless pursuit of life's most sublime possibilities.

COIN REVERSE: The image of Monticello featured on the reverse is based on an

architectural drawing newly created by the Historic American Buildings Survey. It reflects a level of detail and accuracy that Jefferson — a self-taught architect — would have appreciated.

HELP KEEP JEFFERSON'S DREAM ALIVE

The U.S. Mint is pleased to be a part of the Thomas Jefferson 250th Anniversary Silver Dollar Program. A portion of the proceeds from the sale of these coins will go to the Thomas Jefferson Memorial Foundation, whose mission is to carry forth Jefferson's bold vision through education and the preservation of Monticello.

Part of the proceeds have also been designated to go to the Corporation for Jefferson's Poplar Forest to preserve Jefferson's personal retreat home.

A REVEALING LOOK AT JEFFERSON AND MONTICELLO

Both of the designs featured on this commemorative silver dollar are as distinctive as the subjects they honor.

The design of the coin's obverse is based on the Jefferson Medallion Portrait by Gilbert Stuart, one of the most famous American painters of his time. This work of art was considered by Jefferson's family and friends to be the best likeness of him.

Coins shown are actual size. Designs depicted are renderings and are subject to slight modifications.

The design of the coin's reverse features Monticello and is based on a newly created architectural drawing by the Historic American Buildings Survey. It reflects a level of detail and accuracy that Jefferson — a self-taught architect — would have appreciated.

DEPARTMENT OF THE TREASURY

UNITED STATES MINT
WASHINGTON, D.C. 20220

Dear U.S. Mint Customer:

Many great U.S. presidents have been honored on past commemorative coins. Now, one of the most brilliant and distinguished in American history joins their ranks.

The U.S. Mint is proud to announce the Thomas Jefferson 250th Anniversary Silver Dollar — the first commemorative coin dedicated solely to this great statesman, architect of freedom, founding father and true Renaissance man.

The obverse features a rendering of the Medallion Portrait of Thomas Jefferson, originally painted in 1805 by the renowned artist, Gilbert Stuart. It is fitting that this painting — designed in the manner of a classical coin or medallion — should now be interpreted in silver as an official coin of the Nation Jefferson helped to found. The reverse features a rendering of Thomas Jefferson's home and architectural masterpiece, Monticello.

Combine the historic importance of the coin's design with a limited authorized mintage of only 600,000 — one of the lowest in recent commemorative history — and you have a coin that is expected to be popular among collectors and Jefferson enthusiasts alike.

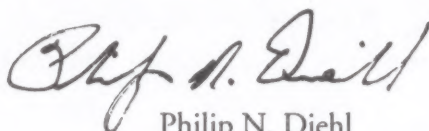

This silver dollar is available in both proof and uncirculated versions. The proof coin achieves unmatched clarity and depth through a multi-strike process with polished dies, accentuating the minute detail of the frosted images set against a mirror-like background. The uncirculated coin features a soft, satin-like finish.

To pay tribute to Thomas Jefferson's singular role in establishing America's decimal coinage system, we are also offering a first-ever collection containing an uncirculated Thomas Jefferson 250th

Anniversary Silver Dollar, an uncirculated Jefferson nickel, and an uncirculated Jefferson \$2 note from the Bureau of Engraving and Printing.

As always, our offerings make perfect gifts for family members and friends. Don't miss this opportunity to own a one-of-a-kind, limited-mintage commemorative coin honoring one of the greatest figures in American history.

Sincerely,

A handwritten signature in dark ink, appearing to read "Philip N. Diehl". The signature is fluid and cursive, with the first name "Philip" being more prominent and the last name "Diehl" following in a similar style.
